

- ① Open a .psd file.
- ② Locate the **"YOUR PHOTO"** layer in the layers panel.

- ③ **Double-click on the thumbnail** to open a new tab with a blank canvas.

- ④ Add the desired photo to the blank canvas and **Save**.

- ⑤ Close the window and you should see your project is beautifully created as a mockup. Repeat step ② - ④ until you fill all photo frames, then **export** it as a jpg.
